# Managing Users

This manual is intended to outline how to manage your health care facility users, including explaining how to add users, update user roles and deactivating users on the HCAI User Management tab.

**To make changes to the User Management tab in HCAI, you must be the Authorizing Officer or have the Facility User Administration role assigned.**

## Add a User

To add a new User:

- Sign-in to [www.hcai.ca](http://www.hcai.ca)
- Go to the Manage → User Management sub-tab.
- Press the **ADD NEW USER** button. The *Add / Edit / View User Details* screen appears.

Click on the "Add a New User" button.

- Answer the question "Is the User a Provider?"
  - If the answer is Yes, a drop-down list appears. Select the Provider to whom a User Profile is being assigned.
  - If no, enter the first and last name of the new User.

All fields marked with an asterisk (\*) are mandatory.

- Enter a User Name.
  - A User Name must contain at least six characters and must be unique within the HCAI system.
- Enter Employee ID.

- If your facility does not use Employee ID's, enter characters in this field to help identify the user, such as their initials.
- Enter the user's email address.
  - You can also enter a phone number for the user if available.
- Select the level of access to assign to the User

Use the drop-down menu to select the level of access.

- If the new User is also the new Authorizing Officer for the facility, you must assign the Facility Administrator and the Facility User Administrator roles.
- HCAI will display the User Name and temporary password for the new User.
  - If an email address was entered, the User receives an email with their User Name and temporary password.
  - If an email address was not entered, you must communicate the User Name and temporary password to the new User.

Once you have made note of the temporary password, click on "Done" to close the window.

- **Please note:** if the new user is also the new Authorizing Officer for the facility, you must also update the Authorizing Officer section of the Facility Management tab.
  - For instructions on how to do this, review [Chapter 4](#) of the Web User Manual "Managing Your Facility."

## Levels of Access and Roles

In HCAI, there are two levels of access that can be assigned to a User:

- The **Facility** level of access
- The **Provider** level of access

There are various roles that can be chosen within each access level. Depending on the role, the User can see different tabs within HCAI and update different sections.

| Level of Access | Roles Available             | Viewable Tab(s)                                                                                                                                                                                                             |
|-----------------|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

- The spreadsheet can be immediately opened or saved into your computer

## Deactivate a User

Providers who no longer work at your facility must be deactivated in a timely manner to avoid placing your facility data at risk of unauthorized access.

- Sign-in to [www.hcai.ca](http://www.hcai.ca)
- Go to the Manage → User Management sub-tab.
- In the Search for Users section, select Active for User Status, enter the last name of the user to be deactivated and press the **SEARCH** button.

The search results can be further refined by entering the User Name, Employee ID, or E-mail of the user or selecting their Facility Roles.

- Click on the name of the user to be deactivated in the *Search Results* screen to open their User Profile.

This profile details section allows users to view:

- Organization Type
- Organization Name
- User Status
- First and Last Name
- Title (if provided)
- User Name
- Employee ID
- Email
- Business Phone number

These details are Read-Only; **only users with the Facility User Administration Role** can update some of the information displayed by updating the user account information on the User Management tab.

**Quick Tip: Do I have the Facility User Administrator role?** When logged in to HCAI, User Administrators are able to view the *Manage* tab and the *User Management* sub-tab.

## Contact Details for Authentication

The My Profile tab also contains the following information used for two-factor authentication:

- **The email** that is used for receiving verification codes. This field is auto-populated with the email address associated to your user account. If this information requires updating, only users with Facility User Administrator access can update this information via the User Management tab
- **The phone number** field is an optional field that is editable by the user; users are able to provide a phone number that can receive the verification code by text. A User Administrator cannot edit this field on behalf of the user.
