Chapter 1:

Create an OCF-21C & Tab 1

The OCF-21C is used to invoice automobile Insurers for the medical and rehabilitation goods and services, and examinations delivered in within Minor Injury Guideline (for accidents on or after Sept 1, 2010).

To Create an OCF-21C:

- Login to HCAI at www.hcai.ca
- In HCAI, there are two options for OCF-21C creation:
- Create an Invoice from a Plan.
 - This option can be used once your Facility submits the associated OCF-23 via HCAI.
- Create an Invoice from scratch.
 - This option is used when your Facility has not previously submitted an OCF-23 via HCAI.

Create an OCF-21C from a Plan:

- Login to HCAI
- Locate the submitted Plan on the applicable Plans Tab and click on the magnifying glass to the left of the Plan.
- The Plan will open. Click  and you will be brought directly into an Invoice.
- Many of the fields on the Invoice will be populated from the submitted OCF-23; however you will still have the option to edit many of these fields.

Click on the "Create Invoice" button. A new screen opens to create the invoice.

Please note: If you create an invoice from a plan that had an insurer branch selected, and this branch is no longer accepting new documents, you might receive a pop-up message stating "Either the insurer or the branch is deactivated or not accepting new documents. Please select another branch or insurer".

- To continue, press 'Ok'.
- In the OCF-21C, navigate to Part 2: Auto Insurer Information.
- Select a new branch or contact the Insurer to find out how to proceed

Create an OCF-21C from Scratch

- Go to the Invoices tab and any sub-tab.
- Select OCF-21C from the dropdown list and click the **CREATE NEW** button. A blank OCF-21C will open.

Use the drop-down menu to select OCF-21C and click on "Create New".

OCF-21C TABS

The OCF-21C in HCAI is organized under five tabs. These tabs reflect the parts of the paper OCF-21C form and include similar sections. To navigate between the tabs, simply click on the number along the top or bottom of the screen, or use the button located beside the tabs.

Once you have begun working on your OCF-21C, you can click the button at any point to ensure your progress so far is saved. This will create a draft version of the OCF-21C, which will appear on the Invoices global tab and the Draft sub-tab. Working off a recently created draft can save steps when creating new OCF-21Cs.

Do not use draft OCFs older than one year to create a new plan or invoice.

Old versions of OCF forms are not compatible with the HCAI system and using old drafts will cause submission errors. Be sure to delete drafts older than one year in HCAI.

Tab 1

- Other Insurance (for goods and services on this invoice)
- Additional Information

Tab 5

- Additional Comments (and/or Attachments)

Tab 1 – Claim Identifier

Invoice Created from Plan

- Data will be populated from the information on the submitted OCF-23. No edits are possible.

Invoice Created from Scratch

- Enter Claim Number and/or Policy Number

- The Applicant/Patient must provide the Claim Number (if known) and their Policy Number.
- The Claim Number and Policy Number can be obtained from the insurance Adjuster.
- The Policy Number is also available on the Motor Vehicle Liability Insurance Card (pink slip).
- The Claim Number and Policy Number may be the same.
- Enter the date of the accident, using the drop-down calendar or by typing in the year, month and date (YYYY/MM/DD).
 - If the Applicant/Patient has overlapping injuries from more than one accident, use the date of the accident that is most relevant to the injuries being treated.

Invoice Identifier

- This information will be populated when the Invoice is submitted. No action is required.

Part 1 – Applicant Information

Invoice Created from Plan

- Data will be populated from the information entered on the OCF-23. Generally, edits to the Applicant/Patient fields are not possible, unless the initial OCF-23 is unmatched.
 - If the Applicant/Patient's information has changed since the OCF-23 was completed – for example, their address has changed – you will need to create the new invoice from scratch in order to update the required Applicant/Patient fields.

Invoice Created from Scratch

- The Applicant/Patient or substitute decision-maker should provide this information to the Facility:
- Enter the date of birth of the Applicant/Patient using the drop-down calendar.
- Select the gender of the Applicant/Patient using the radio buttons.
- Enter the Last Name, then the First Name of the Applicant/Patient.

- Input the Applicant/Patient's address.

The Claim Number, Policy Number and Applicant/Patient First and Last Name must be completed before you can navigate to other tabs on the OCF-

Part 2 – Auto Insurer Information

Invoice Created from Plan

- These fields are populated for you when creating the OCF-21C from a Plan.

Invoice Created from Scratch

- The Applicant/Patient or substitute decision-maker should provide this information to the Facility, including:
 - The Insurance Company Name and Branch Name, both of which can be selected from the drop-down list.
 - The Adjuster name and contact details, if available.

What about independent adjusting companies and independent Adjusters?

Independent adjusting companies may be hired by Insurers to adjudicate Claims, but the HCAI application does not list independent adjusting companies.

To direct OCFs appropriately, you should ask the Applicant/Patient or the independent Adjuster the name of the licensed Insurer that insures the Applicant/Patient. Some insurance companies may list independent adjusting companies as a "Branch"

Policy Holder Details

- If the injured person seeking treatment is the Policy Holder, select "Yes" to the question "Is the Policy Holder the same as the Applicant?"
- If the injured person is not the Policy Holder, select "No".
- Two new fields appear.
- Enter the last name of the Policy Holder. The name of the Policy Holder can be obtained from the pink slip or the proof of insurance form.

Use the drop-down menu to select the Insurance Company and Branch.

Part 2: Auto Insurer Information
Please provide the applicant's automotive insurer details

Chapter 2: Tab 2

Part 3 – Invoice Details

- If your Facility uses an internal Invoice numbering system, you may enter it in the “Provider Invoice Number” Field.
 - This number will appear in the HCAI worklist and will help you locate an Invoice after you have submitted it.
 - It is not a mandatory field and may be left blank.
- Click “Yes” for “First Invoice” if your Facility has not previously invoiced the Insurer for the associated Plan.
- Click “Yes” for “Last Invoice” if this is the last Invoice to be submitted for the associated Plan.

Previously Approved Goods and Services

Invoice Created from Plan

- When creating your Invoice from an OCF-23, the Plan’s Document Number will be auto-populated and will not be editable. It will also link to the associated OCF 23 so the insurer can easily identify the plan that the invoice relates to.

Invoice Created from Scratch

- Click “Yes” if the goods and services being invoiced are approved in the associated Plan and enter the Plan’s Document Number, , which can be found on the summary tab of the opened plan, under “Plan Identifier” in the top right corner..
 - If you do not have the Document Number, select “Yes” and type “exempt” (all lowercase) into the Document Number field.

- FSRA's [HCAI Guideline](#) explains when it is appropriate to request an exemption.
- If your Invoice includes goods and services that are not included in an approved Plan, select "No". This indicates you have selected an exemption from providing a Document Number.

Part 3: Invoice Details
To aid in the decision-making process, please identify the plan for this claimant that is associated with this invoice and whether or not this is the first or last invoice under this plan.

Provider Invoice Number:

* First Invoice: ☐ No ☐ Yes

* Last Invoice: ☐ No ☐ Yes

Previously Approved Goods and Services
For previously approved goods and services, please complete the following:

Is this invoice for goods and services described on an OCF-23 in HCAI? ☐ No ☒ Yes

Please enter the HCAI Document Number of the Treatment Confirmation Form (OCF-23) to which this invoice corresponds. This is the eleven-digit "Document Number" in the Plan Identifier section in the top-right-hand corner of the OCF-23. If you wish to indicate that this submission is exempt from providing the OCF-23 number, answer "No" to the question above or type in "exempt".

OCF-23 Document Number:

Part 4 – Payee Information

Invoice Created from Plan or Scratch

- The Facility Name, HCAI Registry Number and FSRA Licence Number (if applicable) are populated by the system.
- Answer the question "Is the Payee the health care facility?" by selecting the "Yes" or "No" radio button.
- As per FSRA's [HCAI Guideline](#), in order to receive payment directly from insurers, facilities must have a valid FSRA Service Provider Licence both at the time the treatment or service is performed and when the invoice is submitted.
 - If you select "Yes" and you do have a valid FSRA Service Provider Licence that meets the above criteria, you will be able to submit your invoice through HCAI.
 - If you select "Yes", but you do not have a valid FSRA Service Provider Licence that meets the above criteria, HCAI will generate an error message and you will be unable to submit your OCF.
 - If you select "No" the process is as follows:
 - The system will show a message that the Applicant/Patient must receive payment of the expense directly from the insurer.
 - The invoice must be submitted through HCAI.

- **In addition:** the invoice must be printed and a hard copy provided to the Applicant/Patient or guardian who then submits the printed copy directly to the insurer.
- Part 4 of the printed invoice will be watermarked with a message that the claimant must be paid directly by the insurer.
- If you require more information on completing Part 4 of an invoice, review HCAIinfo's [OCF-21C eLearning resources](#).

If you select "No", to "Is the payee the health care facility?" an alert appears.

Part 4: Payee Information

Please indicate if the payee of this invoice is the health care facility. The payee may be the facility only if all dates of service are allowed by the facility's FSCO service provider licence. Otherwise, FSCO has indicated this invoice is payable only to the claimant.

Facility Name: Orchard Rehabilitation
HCAI Facility Registry Number: 100804

FSCO Licence Number: [Click here for a link to access FSCO public registry of Licensed Service Providers via HCAIINFO.](#)

Is the payee the health care facility? ☒ No ☐ Yes

THE HEALTH CARE FACILITY IS INDICATING THE INSURER SHOULD PAY THE CLAIMANT DIRECTLY. The insurer is required by FSCO to determine whether the facility held a service provider licence in good standing on the dates of service listed in the invoice. If not, FSCO has indicated the insurer must receive a paper copy of the invoice from the claimant prior to adjudicating and issuing payment.

Make Cheque Payable To:
Payee First Name:
Payee Last Name:
Payee Number:

Editing the "Make Cheque Payable To" Field

- There may be times when a facility wishes to direct payment to a specific person or office
- Within your HCAI account's 'Facility Management' section, the Authorizing Officer of your Facility can determine if they want the Payee field on invoices to be editable or not, by answering the question "Payee Field Editable on Invoices?"
 - If "Yes" is selected, the "Make Cheque Payable To" field may be edited.
 - If "No" is selected, the "Make Cheque Payable To" field may not be edited.
- The Billing Address and Service Address are automatically populated by the HCAI system.

Payee Field Editable on Invoices – No

"Make Cheque Payable To" field is read-only.

Part 4: Payee Information

Please indicate if the payee of this invoice is the health care facility. The payee may be the facility only if all dates of service are allowed by the facility's FSCO service provider licence. Otherwise, FSCO has indicated this invoice is payable only to the claimant.

Facility Name: Rehabilitation Health Maximus Incorporated, a division of Health4Life International

Chapter 3: Tab 3

Part 5 – Injury and Sequelae

Invoice Created from Plan

- The injuries identified in the OCF-23 will populate this field.
 - If the injury or problem has changed since the Plan was approved, it is possible to edit the codes or add additional codes.
 - Claimants treated in the Minor Injury Guideline (MIG) generally have an injury or injuries consistent with the MIG Guideline.

Invoice Created from Scratch

- List the injuries and sequelae that are a direct result of the automobile accident. Standard descriptions will be provided with the corresponding injury code (ICD-10-CA).
 - If you know the ICD-10-CA code, insert it and click the “Confirm Codes”  button.
 - To search for a code from the ICD-10-CA list, click on the  button to open the Injury Code Lookup window.
 - Select the “Series” first, using the drop-down menu.
 - Once a “Series” has been selected, you can pick a “Category” from the drop-down menu and click on the  button.
 - A list of applicable codes appears. Click on the  button to include the code in the plan.
- Each code should be listed only once, regardless of how many Health Care Providers will be engaged in the treatment.
- The first line item should reflect the primary reason you are proposing services, with the most significant injury first.
- In a case where multiple injuries may be classified as the most significant, list the injury requiring the most services first.

- The use of ICD-10-CA codes is intended to classify problems; it is not the equivalent of communicating a diagnosis.

Adding additional lines for injury/sequelae codes

- To add lines for additional injuries, simply click on the  button near the bottom right of the Injury and Sequelae Codes section.

Click on the plus sign to add additional lines.

For more information, refer to the partial pick list of injury and sequelae codes available on HCAInfo's [Coding page](#), or contact your Health Professional Association.

Part 6 – Goods and Services Rendered

Invoice Created from Plan or Scratch

Part 6 is where you provide details of specific interventions that were delivered – e.g. exercise, education, stimulation (TENS, laser, US, etc.) on each date the claimant attended for treatment. The cost of each intervention is NOT entered in Part 6.

Please note: Although they can be entered, **do not** use MIG block billing codes in Part 6, as those will be entered in the “Reimbursable Fees Within the Minor Injury Guideline” section.

Date service rendered

- Using the drop-down calendar tool, select the dates the Claimant received treatment.
 - You can also type dates into the text field (YYYY/MM/DD) and cut and paste if several line items were delivered on the same date.

Code

- If you know the intervention code, enter it by typing it directly into the field under "Code" followed by clicking on the "Confirm Codes"  button.
- To search for an intervention code, use the code search utility by clicking the  button next to the "Code" field.
- The "Search Goods and Services Codes" screen opens. Select either "CCI" (Canadian Classification of Interventions) or GAP (Goods, Administration and Other Codes").
 - GAP codes can be used for services that are not well reflected in the CCI.
 - Once you have selected CCI or GAP, the Section drop-down menu will populate.
 - Pick a Selection in order to have the Intervention drop-down menu populate.
 - Pick an Intervention in order to have the Group drop-down menu populate.
 - Finally, select a Group and hit the  button.
 - The search results appear. To add a code to your plan, click the  button.

For more information on Codes, refer to the Intervention/Treatment Partial Pick List and the list of GAP codes available on HCAInfo's [Coding page](#), or contact your Health Professional Association.

Attribute

- Next, you have the option of adding an Attribute code to indicate how the service was delivered - for example, the number of views in an X-ray study.
- Attribute is not mandatory, and can be left blank.

Provider reference

- To select the Health Care Provider for the intervention (good or service) delivered, click the  button to open the Select a Provider page. Select the Provider from the list and their profession (if they have more than one assigned) and click the  button.

- If more than one Health Care Provider delivered care, select only the one who was most responsible for each visit.
- **Please note:** deactivated providers can still be added to invoices for up to six months following deactivation.

One Health Care Provider and multiple line items

Often, the same provider delivers much or all of the care for a patient. There is a shortcut for inserting one Health Care Provider name in multiple line items:

- Complete all fields except for the “Provider Reference” fields.
- Tick each box to the left of the completed line item.
- Click on the **APPLY PROVIDERS** button.
 - A new window opens.
 - Select the name of the Health Care Provider from the dropdown list and the applicable Provider Profession if they have more than one applied.
 - Click on the **SUBMIT** button.

Use the checkboxes to select lines and click on “Apply Providers”.

Part 6: Goods and Services Rendered

Providers are required to declare the information requested below on every treatment, service and good delivered. Failure to provide this information may delay payment.

The Date Services Rendered fields must contain only dates allowed by the facility's FSCO Service Provider licence. See <http://fSCO.qov.on.ca> for more information.

Date Services Rendered	Code	Description	Attr.	Provider Reference	Quantity/Measure
☒ 2016/01/03	1.EL.02	"Exercise, temporomandibular joi...			1 HR
☒ 2016/01/04	A.XX.TT	Provider travel time, provider t...			1 HR
☐					GD
☐					GD
☐					GD

DELETE **APPLY PROVIDERS**

Add more Items: 5 Items **GO**

CONFIRM CODES

Use these buttons with the checkboxes on the left.

Quantity and unit measure

- Enter the quantity and unit measure of service provided during a single treatment visit or session.
 - For example:
 - 15 minutes = 0.25 HR
 - 1 procedure = 1 PR
 - 1 good (such as a back support) = 1 GD
 - 10 km = 10 KM

- 1 session = 1 SN
- The measures available are:
 - GD for good (such as a back support)
 - HR for hour
 - KM for kilometer
 - PG for page
 - PR for procedure
 - SN for session
- Be sure to use the correct unit measure that corresponds to the service described. For example, all "Goods" (codes that begin with "G") must use the GD measure or you will get an error.
 - Most treatment interventions should use the PR or HR measure.
- Disbursements, such as parking, may be conveyed using the "Other" Administrative Services code (AXXOT) and the HR or PR measures. You must enter a description when selecting the "AXXOT" code.
- Goods and Supplies not listed in HCAI's GAP codes can be entered using the "Other" Goods and Supplies Code (GXX99) and providing a description.
- Mileage expense must be conveyed using the KM (kilometre) measure.
- Do not use the GD unit measure for documentation review or preparation. The unit measure HR is more appropriate.

Add more Items

- To add lines for additional goods and/or services, select the number of lines you wish to add using the "Add more Items" dropdown list just above the  button, then click the  button.

Chapter 4: Tab 4

Reimbursable Fees within the Minor Injury Guideline

Invoice Created from Plan or Scratch

In this section, the MIG Block Billing Fees are entered.

First Date of Service

- Using the drop-down calendar tool, select the first date that service was provided for each treatment. For block fees, this is the date the block of services was initiated.
 - You can also type dates into the text field (YYYY/MM/DD) and cut and pasted if several line items were delivered on the same date.

Code (MIG Block Billing Codes)

- If you know the intervention code, enter it by typing it directly into the field under "Code" followed by clicking on the "Confirm Codes"  button.
- To search for an intervention code, use the code search utility by clicking the  button next to the "Code" field.
- The "Search Goods and Services Codes" screen opens.
- Select the "Section". The only option available is Minor Injury Guideline.
- Once you have selected Minor Injury Guideline, the Intervention drop-down menu populates.
- Select an Intervention in order for the Group menu to populate.
 - The only Group option is the Minor Injury Guideline.

- Hit the  button.
 - The search results appear. To add a code to your plan, click the  button.
- **Please Note:** CCI codes are not available under Reimbursable Fees within the Minor Injury Guideline of the OCF-21C. The maximum fees payable by Insurers for pre-approved services are listed in the Minor Injury Guideline.
- To learn which services are pre-approved, read FSRA's [Minor Injury Guideline](#).

Provider reference

- To select the Provider Reference, click on the  button to open the "Select Providers" window.
- Use the drop-down tool to select the name of the Provider and, if they have more than one profession listed in HCAI, the applicable Provider Profession.
- Click on the  button.
- At least one Provider must be listed for each treatment block.
- If more than one Health Care Provider delivered care, list up to three Providers who were most responsible for each treatment block listed on the Invoice.
 - The Providers will be displayed in the order they were selected.

One Health Care Provider and multiple line items

There is a shortcut for inserting one Health Care Provider name in multiple line items:

- Complete all fields except for the "Provider Reference" fields.
- Tick each box to the left of the completed line item.
- Click on the  button.
 - A new window opens.
 - Select the name of the Health Care Provider from the dropdown list and the applicable Provider Profession if they have more than one applied.
 - Click on the  button.

CALCULATE

Other Insurance (for goods and services on this invoice)

Invoice Created from Plan or Scratch

If amounts are payable by another Insurer, enter the amounts within the 'Other Insurance (for goods and services on this invoice) section. Do not use a negative (-) sign for these amounts.

- Enter amounts that you have or will receive from other insurance sources.
 - Categorize amounts by chiropractic, physiotherapy, massage therapy and "Other".
 - When the category "Other" is used, specify the type of services covered in the text field (e.g., dental, psychological, optometric).
 - Values entered into this section will be subtracted from the sub-total to determine the amount owed by the automobile insurer.
- Next, answer the question: "Do you want to claim any amount not reimbursed by other insurance sources?"
 - If you select "Yes", a second section appears where you can enter amounts refused from other insurance sources that you want to claim as a part of this invoice.
 - Categorize amounts by chiropractic, physiotherapy, massage therapy and "Other".
 - When the category "Other" is used, specify the type of services covered in the text field (e.g., dental, psychological, optometric).
 - Values entered into this section will be added to the sub-total to determine the amount owed by the automobile insurer.

- Click the **CALCULATE** button to populate the Total fields.

If "Yes" is selected, additional fields appear to claim amounts refused from other insurance sources.

Other Insurance (for goods and services on this invoice)
 Enter the total amounts received or estimated to be payable to you on this invoice for goods and services from other insurance sources (e.g., Ministry of Health and Long-Term Care and Extended Health Care plans to which the applicant is eligible). Categorize amounts by Chiropractic, Physiotherapy, Massage Therapy, and Other. When the category "Other" is used, specify the type of services covered (e.g., dental, psychological, optometric).

Use the section below to indicate the amount you have received or will receive directly from the collateral source or applicant. Enter the amounts as positive values. These amounts will be subtracted from the sub-total to determine the amount owed by the automobile insurer.

	Chiropractic	Physiotherapy	Massage Therapy	**Other Services	Total
MOH					0.00
Insurer 1					0.00
Insurer 2					0.00

**Other Service Type Specified:

Do you want to claim any amount not reimbursed by other insurance sources? ☐ No ☒ Yes

Use the section below to indicate the amount refused from other insurance sources that you want to claim as part of this invoice. Enter the amounts as positive values. These amounts will be added to the sub-total to determine the amount owed by the automobile insurer.

	Chiropractic	Physiotherapy	Massage Therapy	**Other Services	Total
MOH					0.00
Insurer 1					0.00
Insurer 2					0.00

**Other Service Type Specified:

CALCULATE

Totalling

Once all the amounts have been entered, the Totalling field can be updated to reflect the final total. Click on the **CALCULATE** button to determine the Total.

The following amounts are included in the calculation of the Auto Insurer Total:

- Subtotal – Reimbursable Fees within the Minor Injury Guideline Subtotal.
- Minus MOH – sum of all Ministry of Health and Long-Term Care amounts.
- Minus Other Insurer (1 + 2) – sum of all amounts received or payable to you from other Insurers.
- Tax (if applicable)
- Interest – owed to your facility as a result of the Overdue Amount.

The following amounts are not added to the calculation of the Auto Insurer Total:

- Prior Balance – the "Auto Insurer Total" from your last Invoice.
- Overdue Amount
- Payments Received from Auto Insurer – any payments received by an Insurer can be entered here.

The Auto Insurance Total includes the encircled fields.

Totalling		Proposed
Sub-total:		100.00
* Minus MOH:		(100.00)
* Minus Other Insurer (1 + 2):		0.00
Tax (if applicable):		0.00
Prior Balance:		0.00
Payment Received from Auto Insurer:		0.00
Overdue Amount:		0.00
Interest:		0.00
Auto Insurer Total:		0.00

CALCULATE

Please note: Taxes are included in the MIG block billing fees. If applicable, enter additional tax costs in the tax field.

It is possible to request payment for amounts greater than or less than those proposed on a Plan, but the Insurer may request an explanation.

Additional Information

- In Tab 4, near the bottom of the page, there is space for comments to provide additional explanations/clarifications to the Insurer.
 - Only 500 characters are allowed here. If more space is needed, use the text box on Tab 5.

The screenshot shows a software interface with a blue header bar labeled "Additional Information". Below the header is a light gray rectangular area. On the left side of this area, the text "Other Information:" is displayed. To the right of this text is a large, empty white text box with a thin gray border. On the right edge of the text box, there are two small, vertically aligned arrow icons: an upward-pointing arrow at the top and a downward-pointing arrow at the bottom, indicating a scrollable area.

Chapter 5: Tab 5

Additional Comments & Attachments

Invoice Created from Plan or Scratch

- HCAI permits Facilities to do the following:
 - Offer more information to Adjusters by using the space provided in Tab 5.
 - Advise Adjusters that additional documentation (attachments) are being sent which the Insurer requires to adjudicate the form.

How should attachments be sent?

- Attachments must be faxed/mailed directly to the Adjuster.
 - Attachments cannot be sent electronically via HCAI and should not be sent to HCAI.
- To indicate that an attachment is being sent to the Adjuster, check off "Attachments being sent, if any."

If this box is ticked, the Facility must use the space below to describe the attachment being sent.

Additional Comments

Please note that the document is not considered complete until the attachments, if any are indicated, are received by the insurer. It is mandatory to indicate the number and types of documents/reports that are being sent.

☐ Attachments being sent, if any. 

Signature(s) on OCF-21C - Printing the completed OCF

- Prior to submitting an OCF 21 through HCAI, hard copies of the OCF 21 must be printed, signed by the Provider in Part 4 and kept on file at the facility
- Signatures are not transmitted through HCAI to the Insurer.
- Before obtaining signatures, the entire OCF should be complete.
- To print a form:
 - Click on the **PRINT** button located at the top and bottom of the OCF page.
 - You can also print the OCF after it has been submitted. After pressing the submit button, the successful submission window will appear. Click on the **PRINT** button. When printing after submission, the HCAI document number will automatically be displayed on the printed OCF.
 - Depending on your internet browser settings, the document may immediately download or you may need to select whether to open or save the document.
 - For more information on changing your Internet Browser's pop-up settings, please review the Pop-ups section of HCAIinfo's [Computer Requirements & Tips page](#).

Click the print button after submission to print the completed OCF

The screenshot shows the 'Create OCF21' form with the HCAI logo in the top right. The form is divided into three main sections: Claim Identifier, Return this form to:, and Invoice Identifier. Below these is a confirmation message and two buttons: PRINT and CLOSE WINDOW. A green arrow points from the text 'Click the print button after submission to print the completed OCF' to the PRINT button.

Claim Identifier	Return this form to:	Invoice Identifier
Applicant Name: hi, hi Claim Number: 231231 Policy Number: Date of Accident: 2016/07/07	Nova Insurance 11 Millard St. Peterborough, Ontario M1M1M1	Document Number: 17081700013 Invoice Number: OCF Type: 21 Date Submitted: 2017/08/17 Source: Web OCF Effective Date: 2016/07/22 Archival Status: Not Archived

You have submitted document number 17081700013. Please note that the document is not considered complete until the attachments, if any are indicated, are received by the insurer.
