Chapter 10: Insurer User Management

User Management involves the set up and maintenance of individual users within HCAI. Users are assigned roles and domains within HCAI that define what a user can do and where they can do it. This chapter outlines the user management functionality in HCAI.

In HCAI, a role defines a set of tasks that a user can perform. Each task represents a user's interaction with the HCAI web application. Domains specify the location of the performed task or, more simply, the place within an insurer organization where the claim information is located. For more information on the structure of insurer organizations within HCAI, please see Chapter 9: Insurer Management.

The user administrator role is the only role permitted to access the user management module in HCAI. The User Administrator can create users, assign or remove roles, and grant access to users. Additionally, User Administrators are automatically granted the Team Administrator role, which allows them to create and manage teams.

Adding a user

Only those users assigned the user administrator role are able to view the user management tab and access the add user functionality.

1. Click the Manage tab on the HCAI home page.
2. Select the User Management tab—the User Search screen opens.
3. In the Add a New User section of this screen, click the  button—the Add/Edit User screen appears.

4. Fill out the form provided in this screen—fields marks with asterisks are mandatory.

Click 'Add New User' to get started setting up a new HCAI account

The screenshot displays the HCAI User Management interface. At the top, there is a navigation bar with tabs for DASHBOARD, PLANS, INVOICES, CLAIMS, SEARCH, and MANAGE. The MANAGE tab is selected, and a sub-tab for USER MANAGEMENT is active. Below the navigation bar, there is a search bar for Claim Number and a dropdown for All Forms. A green arrow points from the text 'Click 'Add New User' to get started setting up a new HCAI account' to the 'ADD NEW USER' button. The main content area is titled 'User Management > User Search' and contains two sections: 'Add a New User' and 'Search for Users'. The 'Add a New User' section has a text input field for the user's name and a blue 'ADD NEW USER' button. The 'Search for Users' section has a text input field for search criteria and a 'Search' button. Below the search criteria, there are checkboxes for User Status (Active, Deactivated), Last Name, First Name, User Name, Employee ID, and E-mail. At the bottom, there is a section for 'Insurer Roles' with checkboxes for various roles: Claim/Claimant Administrator, Executive Report Viewer, Insurer User Administrator, Organization Administrator, Report Viewer, Form Support, Manager Dashboard Viewer, Form Adjuster, Form Manager, and Claim/Claimant Editor.

5. Enter the user's last and first names in the respective fields.
6. Enter the title of the user in the 'Title' field.
7. Specify a user name for the user—once the submit button is pressed, this name cannot be edited. After this, it is read-only for the lifetime of the account.
8. Enter Employee ID—this is assigned by the insurer.
9. Enter the user's phone number and e-mail address in the respective fields.
10. Indicate if the user's searching and filtering capabilities should be restricted.
11. Specify the level of access to be assigned to the user.

Enter the user's information in the respective fields

Indicate if you want to allow this user to search and filter by all other users in the company

Allow this user to search and filter by all other users in the company?

☐ Yes – Allow access to all users.

☒ No – Allow this user to search and filter only by users with whom the user shares a team.

Restrict Searching and Filtering by Other Users

Now that users can search and filter according to "Claimant File Owner," they will see drop-down lists of all users in the company on search and filter screens across HCAI. User Administrators may wish to hide these usernames from certain users, such as independent adjusters or contractors. If a restricted user is part of a team, they will only be able to see the names of fellow team members. They will see no other names on the list.

Note: This setting is unrelated to the other security settings that control access to documents and claimant files. It **only** limits which usernames can be seen in search and filter drop-down menus.

The setting asks, "Allow this user to search and filter by all other users in the company?"

In most cases, to allow users to take full advantage of HCAI's searching and filtering capabilities, you will not need to restrict users. To allow the user to search and filter by any user, select "Yes – Allow access to all users".

To restrict the user, select "No – Allow this user to search and filter only by users with whom the user shares a team."

User Management > [User Search](#) > Add/Edit User**Add/Edit/View User Details**

Branch/Claim Group

SAVE

Assign a level of access using the drop-down menu

Level of Access

There are three levels of access that can be assigned:

- **Insurer:** A user with the Insurer (parent) level access will be able to view details of all companies within the group—this level of access is usually assigned to users who are performing user administration, organization administration and plan/invoice manager roles
- **Child Insurer:** A user with child insurer level access will be able to view details for the selected companies—this access is normally assigned to users who perform the plan/invoice role
- **Branch/Claim Group:** A user with branch/claim group level access will be able to view details for the selected branches/claim groups—this access is normally given to users who perform tasks for a number of branches/claim groups.

Once the level of access is determined, the roles and responsibilities sections will display the selections available and the grant access rights box will display the appropriate selections.

The available roles and access rights displayed here will depend on the level of access

What level of access do you want to give the user? Branch/Claim Group ▼

Assign Roles to the User

Management & Administrator Roles allow users to manage HCAI users, organization information and report generation. Support Roles allow users to manage claim and claimant information, assign adjusters, and provide administrative support, but not to deliver approval decisions. Adjusting Roles allow users to record approval decisions and manage forms. Download Report Roles allow users to download reports on the selected pages that contain claimants' data. Multiple roles may be selected.

Management Administrator Roles

☐ Organization Administrator ☐ Insurer User Administrator ☐ Team Administrator
☐ Report Viewer ☐ Executive Report Viewer ☐ Manager Dashboard Viewer
☐ Form Manager ☐ Audit Report Viewer

Support Roles

☐ Form Support ☐ Claim/Claimant Administrator

Adjusting Roles

☒ Form Adjuster

Assigning roles and responsibilities

Once you have selected the level of access, the screen will refresh with the available roles and responsibilities. The roles available for selection will coincide with the level of access chosen.

A list of insurer roles available within HCAI, along with a description of the tasks associated with each role is provided in the following table:

Role	Task
Insurer User Administrator	View, create, update and search for users Reset passwords View the Manage tab and User Management sub-tab Deactivate/activate users

Organization Administrator	View and update insurer View, create and update branches/claim groups View the Insurer Management tab Deactivate/activate insurers and branches/claim groups
Team Administrator	View, create, update and remove teams Search, add, update and remove users within a team Grant or revoke Team Editor permission within a team Grant or revoke Team Dashboard access within a team View Manage tab and <i>Team Management</i> sub-tab
Form Manager	View EOB Search for a document View Worklist View <i>Plans, Invoices, Claims, Search</i> and <i>Manage</i> tabs Transfer unmatched or unassigned documents between Parent and Child Insurers Transfer claims between branches/claim groups View, create, search and update Claim View, create, search and update Claimant Unlink and match Claimant from a document Claimant reports
Report Viewer	View <i>Manage</i> tab and <i>Reports</i> sub-tab View and print insurer reports
Executive Report Viewer	View <i>Manage</i> tab and <i>Reports</i> sub-tab View Executive-level reports only
Audit Report Viewer	View <i>Manage</i> tab and <i>Reports</i> sub-tab View the User Activity Report only Available to users with Insurer level of access
Manager Dashboard Viewer	Available to users with Insurer, Child Insurer and Branch/Claim Group level of access Access to the dashboard tab
Form Support	View Plans and invoices Save Work in progress for plans/invoices View EOB Search for a document View a worklist View <i>Plans, Invoices</i> and <i>Search</i> tabs Claimant Reports
Claim-Claimant Administrator	View, create, search and update Claims View, create, search and update Claimants View Documents View submitted EOB Search for Documents

	View Claims and Search Tabs View Claims and Claimant sub-tab Claimant reports General Notifications area in Claim and Claimants tab
Form Adjuster	Ability to tag a document View and submit response to Forms Save work in progress for Forms View, create and update EOBs Search for a Document View Plan, Invoice, Claims, Claimants and Search Tab Search for and view claim records in read-only mode Search for and view claimant records in read-only mode Initiate Need to Discuss Withdraw Plan/Invoice Response Match claimant (for users with Insurer, Child Insurer or Branch/Claim Group level of access) View Claimant reports
Claim-Claimant Editor	Search for and browse claim records Search for and browse claimant records Edit claim and claimant records (except the 'File Owner' assignment drop down menu) Deactivate and reactivate claim or claimant records Update claimant details directly on a document View Claimant reports
Claimant Search Results	Ability to use the "Download Report" button on the Claimant Search Results page
Document Search Results	Ability to use the "Download Report" button on the Document Search Results page

Users can be assigned one role or multiple roles. The variety of roles available and the ability to assign multiple roles to a user provides insurers with the flexibility to narrowly restrict the tasks that some users are permitted to perform, while granting other users broad access to functions within HCAI.

To assign roles and responsibilities to the user, click on the box beside the role to be assigned.

Grant Access Rights to User

Appropriate selections will be available based on the level of access you have chosen for the user.

- **Insurer:** the user will have access to all information for the group of companies and no further input is necessary
- **Child Insurer:** Select the appropriate companies by clicking on the box beside the company name (this will only appear if the organization is set up as part of a group of companies with a child insurer)
- **Branch/Claim Group:** Select the appropriate branches/claim groups by clicking on the box beside the branch/claim group name

Saving a New User

Click the **SUBMIT** button at the bottom of the Edit User screen to save the user and their associated role and domain access in HCAI. A confirmation screen will appear. Review the assigned access and click **SUBMIT**.

When the user has been successfully added, you will arrive at a confirmation screen that displays her or her password

The screenshot shows the HCAI User Management interface. At the top, there's a navigation bar with 'PLANS', 'INVOICES', 'CLAIMS', 'SEARCH', and 'MANAGE'. Below this is a search bar for 'Claim Number' and a 'LOGOUT' button. The main content area has tabs for 'INSURER MANAGEMENT', 'USER MANAGEMENT' (which is active), and 'REPORTS'. A confirmation message is displayed: 'New HCAI user has been created. Username, password and link to HCAI should be given to users that did not provide a valid email address.' Below the message, the user details are shown: 'UserName: JSmith23' and 'Password: WLRUTFCO'. A green arrow points from the text 'her or her password' to the password field. There is a 'DONE' button at the bottom of the confirmation box. The date '2017/09/07' is displayed in the top right corner.

Once the user set up is confirmed, you are returned to the form with a confirmation message that states you have successfully added a new user and provides you with the user's password. The user will also receive emails containing the user name and login details.

If the data is invalid or incomplete, you won't be able to save the user. If this happens, you will be returned to the form with an error message displaying the field name and the type of error.

Searching for a user

The User Search functionality is found in the User Management tab, which is accessible from the Manage tab on the insurer home page. Click the Manage tab. If the User Management tab is not the default selection, select it. The User Search screen displays.

In the search for users section, use any of the following search criteria:

- **User status**
- **Last name**
- **First name**
- **Employee ID**
- **E-mail**
- **Insurer Roles**
- **Level of Access**

Click **SEARCH**. If there are any errors, an error message appears. Otherwise, HCAI will take you to the search results screen. **Note:** All searches are performed with a forward wildcard. Thus, searching for "A" is effectively "A*"

Search for users on the Manage tab > User Management sub-tab.

Viewing Search Results

The search results screen shows a list of users determined by your search criteria and associated with your organization.

The default sort order of users is alphanumeric ascending by Employee ID. If there are multiple search results, they are divided into several pages with the default number of line items displayed on each page restricted to 10.

To change the number of line items per page, select the number of items from the "View" drop down list.

You can sort your results by different headers by using the arrow button pictured here

Press the 'Download Report' button to download your search results to an Excel-friendly file

The screenshot displays the 'User Management > User Search > Search Results' page. At the top, there are navigation tabs: DASHBOARD, PLANS, INVOICES, CLAIMS, SEARCH, MANAGE, and HCAInfo. Below these is a search bar with 'Search for Claim Number' and a dropdown for 'All Forms'. A 'GO' button and an 'Advanced' link are also present. The main content area shows 'Users (1 of 3)' and a list of users. The table has columns: User Name, Employee ID, Name, Roles, Access Level, and Status. A green arrow points to the 'User Name' header, and another points to the 'Download Report' button. The page also includes a 'View' dropdown menu set to '10 items' and page navigation links '1 2 3 ... Next >'.

☐	User Name	Employee ID	Name	Roles	Access Level	Status
☐	236	35738	Hayes, Carissa	Claim/Claimant Administrator, Claim/Claimant Editor, Claimant File Owner, Form Adjuster, Form Manager, Form Support, Insurer User Administrator, Organization Administrator, Report Viewer, Team Administrator	Insurer	Active
☐	246426	237457	Gilbert, Paige	Claim/Claimant Administrator, Claim/Claimant Editor, Claimant File Owner, Form Adjuster, Insurer Administrator, Team Administrator	Insurer	Active
☐	Alicia_INS	123456	Neely, Lisa	Claim/Claimant Administrator, Claimant File Owner, Executive Report Viewer, Form Adjuster, Form Manager, Form Support, Insurer User Administrator, Manager Dashboard Viewer, Organization Administrator, Report Viewer, Team Administrator	Insurer	Active
☐	Am11	23512362	Martin, Albert	Insurer User Administrator, Organization Administrator, Team Administrator	Insurer	Active
☐	Billy12	5667	Joe, Billy	Claim/Claimant Administrator, Claimant File Owner, Form Adjuster, Insurer User Administrator, Team Administrator	Insurer	Active

To navigate in the multi-page search results:

- Click 'Previous' or 'Next' to move forward or backward through all the pages of the Search Results set.
- Use the page number links to move to a particular page of the search results

To refine your search:

- Click the “Refine Search text link—this returns you to the User Search screen
- Modify the data as required and click ‘Search’

To change the sort order of the search results list:

- Click on the “Employee ID” column header—this toggles the sort order from the default alphanumeric ascending to descending
- Click on the “Name” column header to sort the results in ascending order by the User’s name—click again to switch to descending order—the secondary sort order is alphanumeric ascending by employee ID
- Click on the ‘Status’ header to sort the results in ascending order by the status of the user—click again to switch to descending order

To view user details:

- Click on the user name link in the ‘Name’ column to proceed to the Add/Edit User screen

Download User Search Results Report

This report enables a user to download results from the User Search > Search Results screen to an excel-friendly spreadsheet. The spreadsheet is a more detailed report than the web view of the search results and includes more information, such as the user name, email address, phone number and date of deactivation for each user appearing in the search results.

Updating a user

Search for a user as described in the Searching for a User section. In the search results list, click on the user name in the “Name” column. This brings up the Add/Edit user screen.

In this screen, you can edit the user details in the editable fields. You cannot edit the user name; it is only editable on the creation of the user account. After that, the user name is read-only for the life of the account.

To update a user:

1. Input the desired changes and press the Save button.
2. The confirmation screen will display, review the changes.
3. Press Save again; a message will display that the user has been successfully updated.

You can update any of the editable fields

When you are done, press 'Save'

The screenshot shows the 'Add/Edit User Details' form in the Atria Insurance system. The form is divided into several sections:

- Add/Edit/View User Details:** This section contains fields for user information, including Organization Type (Insurer), Organization (Atria Insurance), User Status (Active), Last Name (Gilbert), First Name (Paige), Title, User Name (246426), Employee ID (@GilbertP), E-mail (email@best.ca), Confirm E-mail (email@best.ca), and Phone. A 'RESET PASSWORD' button is located next to the User Name field.
- Allow this user to search and filter by all other users in the company?** This section has two radio buttons: 'Yes - Allow access to all users' (selected) and 'No - Allow this user to search and filter only by users with whom the user shares a team'.
- What level of access do you want to give the user?** This section has a dropdown menu set to 'Child Insurer'.
- Assign Roles to the User:** This section contains three groups of checkboxes:
 - Management Administrator Roles:** Organization Administrator, Report Viewer, Form Manager (checked), Insurer User Administrator, Executive Report Viewer, Audit Report Viewer, Team Administrator, and Manager Dashboard Viewer.
 - Support Roles:** Form Support and Claim/Claimant Administrator.
 - Adjusting Roles:** Form Adjuster (checked), Claim/Claimant Editor, and a section for 'Allow this user to have ownership of claimant files?' with 'Yes' (selected) and 'No' options.
 - Download Report Roles:** Claimant Search Results (checked) and Document Search Results (checked).
- Grant Access Rights to the User:** This section has a checkbox for 'Atria Child' which is checked.
- Teams Associated with the User:** This section states 'This user does not belong to any team.' and includes a 'REVIEW TEAM MEMBERSHIP' button.

At the bottom of the form, there are 'CANCEL' and 'SAVE' buttons. A green arrow points to the 'RESET PASSWORD' button, and another green arrow points to the 'SAVE' button.

Resetting user passwords

When a user is suspended from HCAI, the User Administrator for the insurer can reset the user's password by:

1. Click on the Manage > User Management tab
2. Search for the user and click on his/her hyperlinked name
3. Once the user is located, click on his or her name to open the profile
4. Hit the reset button located in the user's profile

5. A temporary password will be displayed. The user will also receive an email containing login details.

Press the 'Reset Password' button to reset a user's password

The screenshot shows the HCAI User Management interface. At the top, there are tabs for DASHBOARD, PLANS, INVOICES, CLAIMS, SEARCH, and MANAGE. The MANAGE tab is selected. Below the tabs, there is a search bar for Claim Number and a dropdown for All Forms. The main content area is titled 'User Management > User Search > Add/Edit User'. It contains a form for adding or editing a user. The form has fields for Organization Type (Insurer), Organization (Nova Insurance), User Status (Active), Last Name (Fayes), First Name (Carlissa), Title, User Name (236), Employee ID (35738), E-mail (carissah@novainsurance.com), Confirm E-mail (carissah@novainsurance.com), and Phone. A 'RESET PASSWORD' button is highlighted with a green box and a green arrow. Below the form, there are radio buttons for 'Allow this user to search and filter by all other users in the company?' (Yes - Allow access to all users, No - Allow this user to search and filter only by users with whom the user shares a team). There is also a dropdown for 'What level of access do you want to give the user?' (Insurer). At the bottom, there is a section for 'Assign Roles to the User'.

Deactivating or reactivating a user

The deactivate/reactivate user functionality is found in the User Management sub-tab.

To deactivate a user:

1. Click on the Manage > User Management tab—the User Search screen will appear
2. Search for the user you wish to deactivate
3. In the Search Results screen, click on the user you wish to deactivate—the Add/Edit User Details screen will appear
4. Click the **DEACTIVATE** button to deactivate the user
5. The screen will refresh—the message 'User Deactivated' appears and the **DEACTIVATE** is replaced with an **ACTIVATE** button
6. The user will no longer have access to HCAI—the user name cannot be reused in HCAI

Press the 'Deactivate' button to deactivate the user

ACTIVATE

Deactivate User Accounts in Bulk

An easy way to clean up unused/duplicate user accounts at your organization is to update their user status to 'deactivated' in bulk. To edit a user's status in bulk, you must have the **User Administrator** role assigned.

1. Go to the Manage tab and User Management sub-tab.
2. Input search criteria and click the "Search" button.
3. On the Search Results page, use the checkboxes to select the users that will be deactivated. You may edit up to 50 users at once.
4. Click the "Modify Status" button.
5. On the 'Edit User Status' screen, select "Deactivated" from the drop-down list.
6. Click the "Save" button.
7. Verify that the information displayed is correct, then click "Save" again.
8. A confirmation message will display indicating the number of user accounts that were deactivated.

Update Users' Levels of Access in Bulk

You can also update several users' level of access at once. To complete this task, you must have the **User Administrator** role assigned.

1. Go to the Manage tab and the User Management sub-tab.
2. Input search criteria and click the "Search" button.
3. On the Search Results page, use the checkboxes to select one or more users. You may edit up to 50 users at once, if you are granting these users the same level of access.
4. Click the "Modify Level of Access" button.
5. Select a new level of access from the drop-down list.
 - If **Insurer** level of access is selected, click "Save".
 - If **Child Insurer** level of access is selected, your child insurers will display. Select which child insurer(s) the users should have access to and click "Save".
 - If **Branch/Claim Group** level of access is selected, your claim groups will display. Select which claim group(s) the users should have access to and click "Save".
6. After clicking the "Save" button, if some of the selected users cannot be assigned this level of access because of their role, a pop-up message is displayed explaining what is allowed and which accounts will be updated using this tool. Click "Ok".
7. Confirm the information displayed is correct. If editing multiple users, the User Accounts section displays the number of users that were successfully modified.
8. Click the "Save" button.

Review My Profile

Any logged-in user can click on the My Profile tab to see an overview of their user profile information, as well as their contact details for two-factor authentication.

Most information on My Profile is read-only, but the cell phone number for two-factor authentication can be edited

The screenshot shows the 'MY PROFILE' tab in the HCAI system. The page has a navigation bar with tabs: DOCUMENTS, CLAIMS, SEARCH, MANAGE, MY PROFILE, and HCAInfo. Below the navigation bar is a search bar for 'Claim Number' and a 'LOGOUT' button. The 'MY PROFILE' section is active, showing 'View/Edit User Details'. The 'Profile Details' section contains the following information:

- Organization Type: Insurer
- Organization: Atria Insurance
- User Status: Active
- Last Name: Jones
- First Name: Natalie
- Title:
- User Name: Natalie_Br
- Employee ID: 12
- E-mail: example@test.ca
- Confirm E-mail: example@test.ca
- Business Phone:

The 'Contact Details for Authentication' section contains the following information:

- E-mail: example@test.ca
- Phone: (555) 555-5555 (for receiving text for authentication)

A green arrow points to the phone number field, indicating it is editable.

The Profile Details section of the My Profile tab displays the following information in read-only mode:

- Organization Type
- Organization
- User Status
- Last Name
- First Name
- Title
- User Name
- Employee ID
- E-mail
- Business Phone

This information is not editable on My Profile. Some of the information (User status, First and Last Name, Title, Employee ID, E-mail, and Business Phone) can be updated by a User Administrator on the User Management tab.

The Contact Details for Authentication section of the My Profile tab displays the contact details that will be used to deliver your two-factor authentication verification code when signing in to HCAI. It displays the following information:

- **E-mail:** The e-mail address that is associated with your user account. If this e-mail address needs to be updated, a User Administrator can edit your e-mail address on the User Management tab.
- **Phone:** A cell phone number, used to receive text verification codes for two-factor authentication. This field is optional and can only be edited directly on the My Profile tab.

To learn more about two-factor authentication, refer to [Chapter 3: Sign in to HCAI](#).

Team Management

The intent of a team in HCAI is to group together a small number of existing users who have the same lead or report to the same individual in your organization. Multiple teams can be created, and each user can be part of multiple teams, if required. HCAI recommends having 4-6 members in each team.

Sorting users into teams will prove useful throughout HCAI. Users can search for claimants, and documents according to team, generate reports about the activities of a team, filter their worklist by team, and view a team Dashboard. Teams are shared, so once an administrator sets up a team, other users can search, filter, and generate reports for that team.

Teams can be created, deleted, and edited before migration. However, the full breadth of team functionality will only become available after your organization migrates.

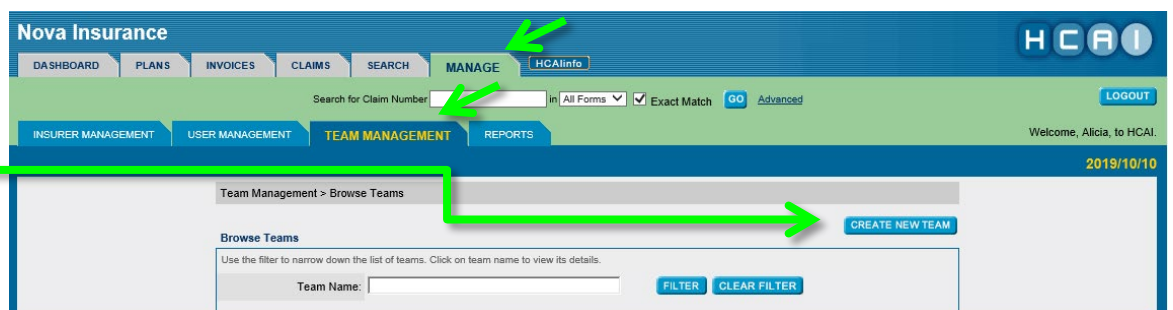

Creating a New Team

To create a team, you must have the Team Administrator role assigned. By default, users with the User Administrator role will have the Team Administrator role assigned in HCAI. The team functionality is located in the Team Management sub-tab, which is accessible from the Manage tab.

To create a new team:

1. Click on the Manage tab > Team Management sub-tab—the Browse Teams screen will appear.
2. Click the **CREATE NEW TEAM** button located in the top right corner.
3. On the Add/Edit Team screen, enter a team name.
4. You can enter a description for the team if needed, but this field is optional.
5. Click "Save".

On the Team Management sub-tab, click "Create New Team"

Adding a User to a Team

To add users to a team:

1. Go to the Manage tab and the Team Management sub-tab.
2. Under Browse Teams, locate the team name and click on it to open the team. You can also search for a team by typing in the team name and clicking the **FILTER** button. A list of teams that meet the filter criteria will display. Click on the team name.
3. Under *Search for Users to Add to the Team*, enter search criteria and click **SEARCH**.
4. A list of users that match your search criteria will display. Click the checkbox next to the user you wish to add to the team. You can select more than one user at a time.
5. Click the **ADD SELECTED** button to add the selected users to the team. The screen will refresh.

Here you can search for users to add to the team. You can check off "active" to search for all active users.

Users that meet the search criteria will appear here. Check the box to select a user and click "Add Selected" to add them to the team.

The screenshot shows the 'Team Management' interface. At the top, there are tabs for DASHBOARD, PLANS, INVOICES, CLAIMS, SEARCH, and MANAGE. The 'MANAGE' tab is selected, and the 'TEAM MANAGEMENT' sub-tab is active. Below the tabs, there is a search bar for claim numbers and a 'GO' button. The main content area is titled 'Team Management > Browse Teams > Add/Edit Team'. It includes a section for 'Edit/View Team Details' with fields for Team Name and Description, and an 'EDIT' button. Below this is the 'Search for Users to Add to the Team' section, which has a search criteria form with fields for User Status (Active/Deactivated), Last Name, First Name, User Name, Employee ID, and E-mail, and a 'SEARCH' button. A green arrow points from the text 'Here you can search for users...' to the 'SEARCH' button. Below the search section is a list of users, titled 'Users (Page 2 of 3)'. The list has columns for Name, User Name, E-mail, Status, and Part of Team(s). Several users are listed, and some have checkboxes in the Name column. A green arrow points from the text 'Users that meet the search criteria will appear here...' to the list of users. At the bottom of the list, there is an 'ADD SELECTED' button and a 'DONE' button.

☐	Name	User Name	E-mail	Status	Part of Team(s)
☒	Gilbert, Paige	246426	paigegilbert@novainsurance.com	Active	
☐	Harper, Kaya	Kay4575	kaykay@yahoo.ca	Active	
☐	Hayes, Carissa	236	carissah@novainsurance.com	Active	
☒	Herbert, Shawn	Shawn111111	sherbert@novainsurance.com	Active	
☒	Joe, Billy	Billy12	billyjoe100@hotmail.com	Active	
☒	Johnny, Smith	JS	johnnysmith1234@hotmail.com	Active	
☐	Mainly, Jacob	JJ3535	jmainly@novainsurance.com	Active	
☐	Martin, Albert	Am11	amartin@novainsurance.com	Active

☐	McDowell, Leilani	LeiLei1134	leiMcDowell@hotmail.com	Active	

6. Under the *Users Associated with the Team* section, you will see the list of team members.
7. To grant a user the Team Editor role and/or Team Dashboard Access, click the **CHANGE** button in each column. It will change from "No" to "Yes" and vice-versa each time you click this button.
 - **Team Editor:** This role is only available for users that are in a team. The user can edit this team's details and add or remove users from this team.
 - **Team Dashboard Access:** The user can view this team's Dashboard.
8. Search for more users to add to the team, or click **DONE** to go back to the Browse Teams screen.

Click the "Change" button to either grant or remove the Team Editor role and Team Dashboard Access

Team Management > Browse Teams > Add/Edit Team

Edit/View Team Details **DONE**

Click the "Edit" button to edit the team name or description.

* Team Name: Blue Team
Description:

EDIT

Users Associated with the Team

Users (Page 1 of 1)

You can remove a user by selecting the check box before the name and clicking the "Remove Users from Team" button. Use the "Change" button to assign or un-assign the user as a Team Editor. Use the "Change" button to add or remove team dashboard access for the user.

REMOVE USERS FROM TEAM View: 10 items

Removing a User from a Team

1. In the Team Management sub-tab, under the *Browse Teams* section, select the team name to open the team.
2. Under the *Users Associated with the Team* section, select the checkbox next to the user you want to remove from the team, then press the **REMOVE USERS FROM TEAM** button.
3. Click **DONE** to return to the Browse Teams main screen.

Deleting a Team

1. In the Team Management sub-tab, under the *Browse Teams* section, locate the team name you would like to remove.
2. Press **DELETE TEAM** next to the team name you would like to remove.
3. A new window will appear. To confirm your changes, click "OK".
4. The page will refresh showing the team removed from your list.

Click the "Delete Team" button next to the team name you would like to remove.

The screenshot shows the Nova Insurance web application interface. The top navigation bar includes tabs for DASHBOARD, PLANS, INVOICES, CLAIMS, SEARCH, and MANAGE. The MANAGE tab is active, showing sub-tabs for INSURER MANAGEMENT, USER MANAGEMENT, TEAM MANAGEMENT (highlighted), and REPORTS. A search bar for Claim Number is visible, along with a LOGIN button and a WELCOME message for Alicia. The main content area is titled 'Team Management > Browse Teams' and contains a 'CREATE NEW TEAM' button. Below this is a filter section with a 'Team Name' input field containing 'Team Yellow' and buttons for FILTER and CLEAR FILTER. A table displays the following data:

Team Name	Team Editor(s)	User Count	
Team Yellow	-	4	DELETE TEAM

A green arrow points to the 'DELETE TEAM' button. The table also includes 'View: 10 items' dropdown menus on the right side.
