Using Decision Support - Invoices

The HCAI Invoice Review is designed to assist in the process of reviewing and applying approval decisions to the OCF-21B and OCF-21C. Regardless of which plan you are reviewing, the HCAI Invoice Review includes the Summary page—a quick overview of the invoice and associated documents—and the invoice itself.

Depending on the roles you have been assigned in the system, you can link and unlink Claimants, reassign Claimant File Owners, search for any apply reason codes, exchange messages with a Facility, make approval decisions on invoices, and create and view the Explanation of Benefits (EOB).

This Chapter describes how to work with invoices (OCF-21B and OCF-21C) in HCAI. Some HCAI functions used in decision support are explained more fully in *Chapter 5: Common Functionality*.

OCF Invoice Review

There are two parts to the OCF Invoice adjudication process: the review and the Adjuster Response. The first includes a read-only review of all the invoice information completed and submitted by the health care facility. This section does not describe how to review the forms—its focus is to guide you through the online procedure of applying/submitting decisions, and explain how to use the HCAI functionality efficiently.

OCF-21B Review

This consists of five screens: the Summary page, which is generated automatically when the invoice is submitted; and the four tabs of the invoice which have been completed by the Facility and are presented in read-only format. Three of the tabs

require an action or response: Tab 1, where Claimant and File Owner information can be updated; Tab 2, where line item decisions are recorded; and Tab 3, where the final approval decision for the invoice is recorded.

OCF-21C Review

This consists of five screens: the Summary page, which is generated automatically when the invoice is submitted; and the four tabs of the invoice, which have been completed by the Facility, and are presented in read-only format. Only two of the three tabs require an action or response: Tab 1, where Claimant and File Owner information can be updated; and Tab 3, where the final approval decision for the invoice is recorded.

Launching the OCF Invoice Review

Select the Documents tab at the top of the Insurer home page.

Click the "Documents" tab to review Invoices in HCAI

Click on the Review Form button to open the desired invoice

Document #	Claim #	Claimant	Claimant File Owner	Document Type	Status	Target Date	Date Submitted
19102100007	22	Kelly	Dixon, Natalie	OCF21B	Review Required		2019/10/21

19101800004	4567861-2	Macab	Dixon, Natalie	OCF21B	Review Required	2019/11/17	2019/10/19

Locate the Invoice you are interested in working with and click on the "Review Form" button (🔍) next to it.

If HCAI has linked the applicant details on the invoice with the Insurer's Claimant information, the Invoice Review opens to the Summary page of the selected invoice by default. Otherwise, you are taken to the *Match Claimant* screen, where you can attempt to match the Claimant manually. For more information on matching Claimant to invoices see [Chapter 6: Claim and Claimant Management](#).

Summary Page

The Summary page is generated automatically upon the submission of an invoice by the Facility. It allows for a quick overview of the invoice and related documents, while showing the document's transaction history and its current state.

In the upper part of the page, there are three read-only sections as specified by the Facility during the creation of the invoice:

- **Claim Identifier.** This section contains Applicant Name, Claim Number, Policy Number, and Date of Accident.
- **Return this form to.** This section contains information about the insurance company to whom the invoice has been submitted.
- **Invoice Identifier.** This section contains the Document Number, which is generated by the system upon the submission of the invoice by the Facility, Invoice Number, OCF Type (-21B or -21C), Date Submitted, source and OCF effective date.

The three sections shown here entered by the facility and are read only

The screenshot shows a web form titled 'Review OCF21B'. At the top, there are tabs labeled 'SUMMARY', '1', '2', '3', '4', and a 'NEXT' button. To the right of the tabs is a 'User Manual' link. Below the tabs are 'CANCEL', 'PRINT', and 'SAVE' buttons. The main content area is divided into three columns, each with a header and a list of details:

Note: The above three sections appear at the top of each step of any OCF invoice following the Summary page

Invoice Details

The Invoice Details section contains the following information:

- **Document Number:** This number is system-generated upon submission of the invoice
- **Claimant File Owner:** This field will populate with the Claimant File Owner name
- **Document Tagged by:** If you work in a team structure, you can click the **TAG DOCUMENT** button. This inserts your name to the left of the button, and changes the button to **REMOVE TAG**. Once a user has tagged an invoice, the

system flags the invoice and other users are able to see that the invoice is in review. Clicking on the "Remove Tag" button removes the flag from the invoice, and changes the button back to "Tag Document"

- **Status:** This field shows the status of the current invoice
- **First Invoice, Last Invoice:** These fields are read-only and have been completed by the Facility
- **Previously Billed Goods and Services:** Information on previously approved goods and services
- **OCF-18/23 Document Number:** The OCF-18/23 to which the invoice refers.
- **Plan Date:** Date the OCF-18/23 was submitted
- **Amount Approved:** Dollar amount of treatment goods/services approved on referring OCF-18/23
- **Previously Billed:** Dollar amount of treatment goods/services billed previously

Once a user has tagged an invoice, the system will mark the invoice as "In Review, tagged by [Adjuster Name]" in the Submitted work list

Claimant, Insurer and Payee Details (Tab 1)

In the Tab 1 screen of the Invoice, you can view the Claimant details as specified by the Facility and compare them with the Claimant information provided by the Insurer. If you have been granted the appropriate HCAI roles, you can also link, unlink, and update the Claimant. From this screen, you can assign or reassign a File Owner or transfer the Claim between different branches/claim groups of the Insurer.

Part 1: Applicant Information

The left part of this section contains the Claimant Information, as submitted by the Facility. In the right half, there is a section for the Insurer Claimant - Current Information. This section displays the current claimant information, even on historical versions of the OCF.

HCAI links the submitted document to the Claimant automatically if there is a perfect match between the Applicant information and the Claimant information. A perfect match occurs when all of the following pieces of information are exactly the same for both the Applicant and the Claimant:

- policy number and/or Claim number;
- date of accident;
- gender;
- date of birth.

Claimant Information on the left-hand side is entered by the submitting Facility

This section displays the most up-to-date claimant information as provided by the Insurer via Claimant Record

Part 4: Payee Information

Part 4 contains Facility information, including the FSCO Licence Number, payee details, billing and service address. By selecting either “Yes” or “No” to the *Is the payee the health care facility?* question, facilities indicate to the insurer whether or not the claimant should be paid directly.

Part 4 indicates whether the Facility has a valid FSCO Licence and whether they are to be paid directly for services rendered

Part 4: Payee Information

Please indicate if the payee of this invoice is the health care facility. The payee may be the facility only if all dates of service are allowed by the facility's FSCO service provider licence. Otherwise, FSCO has indicated this invoice is payable only to the claimant.

THE HEALTH CARE FACILITY IS INDICATING THE INSURER SHOULD PAY THE CLAIMANT DIRECTLY. The insurer is required by FSCO to determine whether the facility held a service provider licence in good standing on the dates of service listed in the invoice. If not, FSCO has indicated the insurer must receive a paper copy of the invoice from the claimant prior to adjudicating and issuing payment.

Reviewing the OCF-21B

In the OCF-21B, approval decisions are made in both the Tab 2 and Tab 3 screens. Tab 2 has the Injury and Sequelae Codes (which is read-only information), the Associated Documents list and the Reimbursable Goods and Services section where the approval decisions are made.

Reimbursable Goods and Services

In the Reimbursable Goods and Services section, goods and services are either approved or declined on a line item basis. If you decline any of the items, you must apply a reason code. The final decision is recorded in Tab 3. The Reimbursable Goods and Services section displays a history of the approved amounts and payments made for each individual good or service.

This history section only appears if an associated document exists

If you wish to approve the invoice as submitted, without any modifications:

In the "Apply multiple reason codes" section, click the **SET CHARGED COSTS TO APPROVED COSTS** button to approve all (no reason code necessary).

The screen refreshes with the "Cost" and "Tax" boxes updated automatically to display the same values/selections as proposed by the Facility.

To deny invoiced goods and services:

To deny goods and services invoiced by the Facility, you must provide a reason code(s) to support the "decline" decision.

If you are only partially denying some of the invoiced goods or services:

In the Proposed Goods and Services table, set the amounts proposed by the Facility in the "Cost," "0" or less than the proposed amount by entering the amount directly into the associated active boxes below the proposed amount and uncheck the "Tax" box, if necessary.

Click the ellipsis button  next to each invoiced good or service to search for the reason code and to add it to the Adjuster Response column.

If you wish to decline all proposed goods and services for the same reason, in the “Apply multiple reason codes” section:

Click the **SET REASON FOR DECLINING** to specify the reason code common for all goods and services.

In support of a partial approval or decline adjudication decision, the “Explanation of adjuster decision” box allows insurers to communicate the rationale for selecting specific reason codes to the facility.

Tab 3: Other Insurer Information

The Tab 3 screen contains Other Insurer Information, which is read-only information submitted by the Facility about other insurance available to cover some of the proposed goods and services. Immediately following is the “Other Insurance (for goods and services on this invoice)” section, which lists the amounts the Facility estimates will be recoverable from other Insurers.

Other Insurance (for goods and services on this invoice)
Enter the total amounts received or estimated to be payable to you on this invoice for goods and services from other insurance sources (e.g., Ministry of Health and Long-Term Care and Extended Health Care plans to which the applicant is eligible). Categorize amounts by Chiropractic, Physiotherapy, Massage Therapy, and Other. When the category "Other" is used, specify the type of services covered (e.g., dental, psychological, optometric).
Use the section below to indicate the amount you have received or will receive directly from the collateral source or applicant. Enter the amounts as positive values. These amounts will be subtracted from the sub-total to determine the amount owed by the automobile insurer.

Explanation of adjuster response

This section displays amounts the Facility estimates will be recoverable from other Insurers

If you agree with the charged services item, confirm and/or modify the “Total” specified by the Facility.

If you disagree with the charged services item, enter "0" in the "Total" field and specify the reason code.

Totalling

The Totalling section contains the final calculation of all charges payable to the Facility. The "Proposed" column shows the amount invoiced by the Facility and the "Approved" column shows the amount approved by the Adjuster. The "Calculated" column shows the tax value calculated by HCAI based on the value of approved line items that have the "tax" box checked.

The Totalling section contains the final calculation of all charges payable to the Facility

	Proposed	Approved	Calculated	Adjuster Response
Sub-total:	237.00	0.00		
* Minus MOH:	0.00	0.00		
* Minus Other Insurer (1 + 2):	(200.00)	0.00		
Tax (if applicable):	0.00	0.00	0.00	...
Prior Balance:	0.00			
Payment Received from Auto Insurer:	0.00			
Overdue Amount:	0.00			
Interest:	0.00	0.00		...
Auto Insurer Total:	37.00	0.00		

The Totalling box contains the following fields in the Proposed and Approved columns:

- **Sub Total:** This amount is calculated by adding up all the approved amounts in the "Unit Cost" column of the Proposed Goods and Services table in Tab 2
- **Minus MOH:** This amount is equal to the approved amount for MOH in the "Total" column of the Other Insurance section
- **Minus Other Insurer (1+2):** This amount is calculated by adding up the approved amounts for Other Insurer 1 and Other Insurer 2, if any, in the "Total" column of the Other Insurance section
- **Tax:** This amount is based on all checked "Tax" boxes in the "Tax" column of the Proposed Goods and Services table(s) in Tab 2, the amount should be verified and entered into the Tax field, if applicable
- **Prior Balance:** This field is populated by the Facility
- **Overdue Amount:** This field is populated by the Facility
- **Interest:** In this field you enter the amount of interest owed, if any
- **Payment Received from Auto Insurer:** Any additional payments received.
- **Auto Insurer Total:** This adds up "Sub-Total," "Tax", "Interest" owed (if any) and subtracts "Minus MOH" and "Minus Other Insurer (1+2)"

The Associated Documents section offers two viewing options: Claimant View (default) and Plan View. Use the 'View' drop-down in the top right corner of the section to select a view.

- **Claimant View:** Displays a consolidated view of a claimant's plans and invoices in HCAI.
- **Plan View:** Displays all documents associated with the current plan that are matched to the same claimant.
 - If you are reviewing an invoice, this view will display the parent plan and all its associated invoices.
 - If you are reviewing a plan, this view will display the plan and its associated invoices. Please note: there are no invoices associated to the Form 1 in HCAI.

In both views, the Associated Documents display is broken down into separate sections for each OCF type. A maximum of ten documents per section is displayed at a time. If you have more than ten documents in a section, you can press the 'Next' button to see more documents.

Reimbursable Fees within the Minor Injury Guideline

This section contains a list of goods/services and the fees being charged for them. The Insurer must enter the approved cost and supply an Adjuster response if the full amount is not being approved.

The tables include the following columns:

- **First Date of Service:** This column outlines the first date of service

- **Code:** The code of a good/service as specified by the Facility in the OCF-23 plan or in the OCF-21C
- **Description:** The description of the associated code
- **Provider Reference:** This column contains the name of the Provider, who will be providing the good or service. Click on the name link to open a separate window and view the Provider details or running your mouse over the name, displays the Provider profession.
- **Maximum Fee:** The maximum fee from the PAF/MIG guideline is displayed
- **Cost:** This column contains the estimate for a PAF/MIG good and/or service as specified by the Facility—the Insurer must confirm the approved cost below the submitted fee (entered by the Facility) by entering the cost in the field below.
- **Adjuster Response:** This column contains an ellipsis button (⋮) to search for a reason code if you deny a good/service

The Adjuster must supply a Reason Code if the full amount is not being approved

CALCULATE

To record a decision against an invoice in each line item enter the amount and then validate the decision by submitting a final decision. There are different ways of doing this:

To approve invoice items:

In the "Reimbursable Fees within the Minor Injury Guideline" section, confirm and/or modify the "Charged Fee" or "Cost" proposed by the Facility and the "Tax," if applicable.

If you wish to approve the invoice as submitted, without any modifications:

In the “Apply multiple reason codes” section, click

SET CHARGED COSTS TO APPROVED COSTS

The “Cost” and/or “Tax” boxes are updated automatically to display the same values/selections as proposed by the Facility.

To decline a good and service invoiced by the Facility, you must provide a reason code to support the “decline” decision.

If you are only declining some of the invoiced goods or services:

In the “Reimbursable Fees within the Minor Injury Guideline” section, set the amounts proposed by the Facility in the relevant “Cost” or “Tax” fields to “0” by entering the amount directly into the associated active boxes below the proposed amount and uncheck the “Tax” box, if necessary.

Click the ellipsis button  next to each invoiced good or service to search for the reason code and to add it to the Adjuster Response column.

OR, if you wish to decline all proposed goods and services for the same reason, in the “Apply multiple reason codes” section:

Click the **SET REASON FOR DECLINING** button to specify the reason code common for all goods and services.

Totalling

The Invoice Totalling section contains the calculation of all charges payable to the Facility. The Proposed column shows the amount invoiced by the Facility and the Approved column shows the amount approved by the adjudicating user. The fields in the Approved column contain:

- **Sub-Total.** This amount is calculated by adding up all approved amounts in the Charged Fee column of *Reimbursable Fees within the Minor Injury Guideline* section
- **Minus MOH.** This amount is equal to the approved amount for MOH in the Total column of the Charged Services section.
- **Minus Other Insurer (1+2).** This amount is calculated by adding up the approved amounts for Other Insurer 1 and Other Insurer 2, if any, in the Total column of the Charged Services section.

- **Tax.** Verify the HST amount and enter in the HST field.
- **Payment Received From Auto Insurer.** Any additional payments received.
- **Prior Balance,** Payment Received from Auto Insurer, Overdue Amount. These fields are populated by the Facility and are here for display purposes only.
- **Interest.** In this field, you confirm the value indicated by the Facility.
- **Auto Insurer Total.** This adds up approved Sub-Total, Tax and subtracts Minus MOH and Minus Other Insurer (1+2).

The Sub-total is calculated by adding up all approved amounts in the "Reimbursable Fees within the minor Injury Guideline" section

	Proposed	Approved	Calculated	Adjuster Response

* Does the insurer attest that it has received a claim form directly from the claimant?

☐ No
 ☐ Yes

The health care facility has indicated it is not the payee. This invoice is PAYABLE ONLY TO THE CLAIMANT. If the facility did not hold a FSCO service provider licence in good standing on the dates of service listed in the invoice, FSCO has indicated that the insurer is not permitted to pay the facility directly.

I have reviewed this invoice and based upon the information provided, I:

APPROVE

PARTIALLY APPROVE

DO NOT APPROVE

When the facility has indicated it is not the payee, insurers must indicate "Yes" or "No" to the *Does the insurer attest that it has received a claim form directly from the claimant?* question. When "Yes" is selected, the adjudicating user must indicate the date when the paper OCF-21 was received.

Insurers can indicate the date of receipt of the paper form here

Once the date has been selected, the final adjudication decision may be rendered in HCAI.

Submitting an Approval Decision

In the bottom of the Insurer Signature section in the Tab 3 screen of both the OCF-21B and OCF-21C, there are four buttons to submit an adjudication decision.

Depending on your final decision, click **APPROVE**, **PARTIALLY APPROVE**, or **DO NOT APPROVE** and two scenarios are possible:

1. **Successful submission.** If there are no errors or incomplete data, your adjudication decision is submitted. The default confirmation screen appears.

When an Adjudication decision is successfully submitted, a confirmation message will appear

Click **CLOSE WINDOW**. This takes you to the Insurer home page. Depending on your decision, the reviewed invoice has been moved into the Adjuster Response work list.

2. **Submission fails.** If there is any invalid or incomplete data, you are returned to the form with:
 - An error notifying you that there are errors;
 - A list of errors, if any, on the current page; and
 - The navigation buttons of error-containing steps highlighted in orange.

Generating and Viewing the Explanation of Benefits (EOB)

The Explanation of Benefits (EOB) can be generated and viewed only after the adjudicating user has submitted his/her decision on the plan.

To generate an EOB:

- Click the “Review Form” button () next to the plan you wish to open in the Adjuster Response work list under the Invoice tab.
- Click **CREATE EOB** at the top or bottom of any of the Tabs.
- The Explanation of Benefits window opens to Tab 1. This information is generated automatically based on the information in the Form. You cannot change this information.
- There is only one Tab that can be edited: Tab 2. Tab 2 contains a column for adding Interest Payable. There is also a field for users to enter additional comments.
- To save an EOB, click **SAVE**. This saves the document as a draft. It will not be viewable to the Facility.

To prepare an EOB for a Claimant:

- Click **PRINT** to produce a PDF of the form to be shared with the Claimant.
- Though not displayed in the web interface, the printed version of the EOB will also include the Applicant’s Rights to Dispute.

To share the EOB with the submitting Facility:

An adjuster may wish to provide additional details about their decision by submitting an EOB to the submitting Health Care Facility.

- To submit the EOB to a Facility, select the **SUBMIT** button at the top or bottom of the EOB.
- Review the information in the EOB and click **CONFIRM**.
- A window will appear to confirm the EOB has been submitted to the Facility.
